

**Alderman Acres Cubicle Curtain Track Components**

**Component Descriptions:**

- **AA-CT300: Track** is anodized aluminum and can easy be cut onsite with a hack saw or a chop saw. Available in custom lengths. Optional Bends at 45% or 90%. *(Made to order by the foot)*
- **AA-CT301: Carrier** has a Nylon Body and Rollers with Nickel Plated Eyelet and Hook assembly. NO lubrication required.
- **AA-CT302: End Stop** is used to terminate the track and prevent Cubicle Curtains from being pulled out. It also has a hole provided to allow Wall mounting when Track is mounted directly to the Ceiling.
- **AA-CT303: 16" PVC Drop** is used to Drop the Curtain 16" Below the Track Carrier.
- **AA-CT304: Suspension Tubing** is used to mount the Track a desired distance below the Ceiling and is anodized aluminum and can easy be cut onsite with a hack saw or a chop saw. *(Made to Order by the inch)*
- **AA-CT305: Ceiling Bracket** is used to attach the Suspension Tubing to the Ceiling or Ceiling Supports.
- **AA-CT306: Wall Bracket** is used to attach the end of the Track to a Wall surface when the Track is suspended below the Ceiling.
- **AA-CT307: Track Bracket** is used to attach the Suspension Tubing to the Cubicle Track.
- **AA-CT308-AC: Add-A-Carrier End Stop** allows you to remove a plate to add or remove carriers without removing the Track.
- **AA-CT309: Track Splicer** is a 5" connector allowing two pieces of Track to be joined without interfering with Carrier travel.
- **AA-CT316: Grid Clip** is used to attached the Track directly to the Ceiling Grid T-Bar
