care instructions

Please follow the listed care instructions to maintain optimal appearance and quality of the product.

WASHING

Ensure that the washing machine is free of burrs or sharp objects that can cause snagging.
Do not overload washing machine.
Machine wash, warm at 160° F.
Wash with like colors and products.
Do not combine with other products (i.e. towels, sheets, etc.).
Use non-chlorine bleach if needed.
Do not use any fabric softener as it can adversely affect the flame retardant properties.

DRYING

Ensure that the dryer is free of burrs or sharp objects that can cause snagging.
Do not overload dryer.
Tumble dry at medium temperature setting (100° to 120° F.).
Dry with like colors and products.
Do not combine with other products (i.e. towels, sheets, etc.).
Do not use any fabric softener as it can adversely affect the flame retardant properties.
Promptly remove from dryer and hang.
Use dry iron or press at low setting if needed.

characteristics

70/72" Wide
100% Polyester
Visa® Intrinsic F.R.®
Permanently Flame Retardant
passes NFPA 701-2010 edition TM-1
Colorfast to light (AATCC-16: 60H, Class 4)
to crocking (AATCC-8: Wet & Dry Class 4)
Ultra Fresh® Anti-Microbial Finish
Meets and exceeds the ACT
standards of performance

Dimensionally stable
Block-out opacity
Reversible
Repeat as shown up the roll
Horizontal: 24" / Vertical: 16"
Custom colors available

Memo samples available upon request

DRY CLEANING

Dry cleaning is recommended if the dry cleaning solvent (perchloroethylene) is used in its pure state. In most commercial dry cleaning operations, however, impurities from previous cycles are deposited on the fabrics and could adversely affect the flame retardant properties of the fabric.
Follow the relevant care instructions as in washing.
